

Company Bulletin - Tuesday 19th April 2016

To give you a flavour of what our staff are engaged with from time to time in the local business community, here are some pictures from last night's offsite 'Meet the Chamber' event for SMEs. This was organised by the Hampshire Chamber of Commerce and we will be at the next event with them in June at the Ageas cricket ground. The Sales team, led here by **Matthew Harris** to promote our core IT services including enquiries on Cloud and backup, along with **Rachel Henning**, promoting our new **BoxStop!direct** hardware division, were in good voice and pretty busy on the stand at a packed event attended by a wide range of Hampshire businesses.

L: The St Mary's football Stadium, Southampton was an excellent open plan venue and the feedback was largely positive. The next event we will be attending with the Chamber is in June at the Ageas cricket ground.

R: Rachel has a chance to chat to Tara Howard, founder of the Venus Awards for women in business during a break in the speeches.

L: The Chamber welcomes some new members to the stage as Matthew and Rachel look on.
