

GDPR tops out with 5 Star customer rating at final thought leadership event of 2017

12th December 2017

Amicus ITS held its final thought leadership MSP event of the year on 12th December 2017. With the focus sharply on GDPR and positive steps for companies to take in the New Year, Amicus ITS opened the doors to a select group of invited customers and guests.

The event which scored 5 star ratings for the third time in succession in 2017 was overseen by **Director of Technology, Security & Governance, JP Norman** (above).

JP Norman commented: *"Last Tuesday's event was enormously satisfying. Most of our customers came to the table relatively well informed and moderately confident about their company's data protection posture, processes and general knowledge around the issue. This ensured lively conversation and thought provoking illustrations. We used the ICO's guiding 12 step principles as our base line and this threw up a whole range of challenges organisations are facing. Fortunately, we were able to advise on recommended courses of action, offer live examples to bring it home - and provide a proactive plan for everyone to act upon in the New Year. I am grateful to everyone who took the time out to join us for this busy session and look forward to checking on progress in the months to come."*

"Informative, easy to follow and excellent hospitality. Thank you"

"Excellent session"

"I've attended several sessions on GDPR but this was best and a great way of cementing knowledge and putting it in context. Great event".

Any organisation seeking advice or information around GDPR should contact a member of the sales team on **+44 02380 429429** or you can email enquiries@amicusits.co.uk
