Sales Director **Les Keen** commented: *I am delighted we were awarded 'Official Supplier' status by the Crown Commercial Service. We have a thirty year heritage as a leading MSP and a fine pedigree of security accreditations which puts us in a compelling position as data guardians to offer specialist cloud and managed services to wider public sector organisations, healthcare and government departments.*

Being on G-cloud 9 will offer the rightful assurance and transparency that public service buyers demand and we have a highly experienced team here to guide everyone through the process.

Indeed, early indications are already proving positive, with my team having fielded a number of enquiries from public bodies in the first 72 hours since our services went live. We are here to help, so do contact us.
