### Amicus ITS Announces Management Buyout

Award winning Hampshire IT company, Amicus ITS, has announced the completion of a management buyout (MBO) by its Senior Management Team, led by Managing Director, **Steve Jackson**.

The MBO comes after nearly three years of ownership by Care UK, during which time Amicus ITS has continued to grow its reputation as one of the UK's leading providers of IT Managed Services to the UK marketplace.

**Steve Jackson** said: *"This is an exciting moment in the company's 27 year history and represents a huge opportunity for the business to build on our reputation as one of the UK's leading managed service providers. We have a very clear vision for the company's strategic growth and expansion over the next five years and beyond and the business has never been in a better shape to realise these ambitions."*

*"The MBO transition will give us further flexibility to design new and exciting IT managed services tailored to our corporate and healthcare clients' needs, as we keep at the forefront of new and emerging technologies."*

By way of illustration Amicus ITS recently launched 'Cloud First', its all-encompassing IT support service dedicated for SMEs which includes a highly flexible and secure backup solution. Amicus ITS is leading the way in cyber security threat management and prevention across the region. The company was awarded official Government supplier status in 2015 for providing IT managed Services within the public sector, which is already yielding a number of sizeable opportunities and is also a confirmed supplier on the G-Cloud 7 digital marketplace for Cloud services.

**Steve Jackson** continued: *"Despite the exciting developments within the organisation, it is very much business as usual. I am pleased to say that we will continue to work closely with Care UK who remain a valued customer of ours. We provide the full spectrum of IT Managed Services for 10.4 million people in the UK for Out Of Hours services, illustrating our enterprise credentials. The core of our business remains our 24x365 UK Service Desk and Network Operations Centre staff who monitor and support all our corporate and healthcare customers. They are the true backbone to keeping our customers' mission critical and life critical services*

## Press Release

*always-on, as we have said for many years our clients' systems don't sleep - so why should we."*

Anyone wishing for further information or details about any of our services should call us on 02380 429429.
