

## Amicus ITS Launches New Website

Lindsay Burden (Marketing Manager) and Lewis Pugh (Web Designer)

**Wednesday 31<sup>st</sup> August 2016**

### Hampshire Technology Firm Launches New Website

Steve Jackson pressed the GoLive! for Amicus ITS' website refresh at the end of an exciting internal four month project for the company.

MD **Steve Jackson** commented, *"2016 has been a hugely productive and positive year for Amicus ITS customers and staff. Following the successful MBO in February; we launched our Boxstop direct brand in April and then a raft of specialist cyber security services called Foxcatcher™ and Amicus Viper™ in June - and we're about to reveal some major corporate news shortly. So having a new website to give our customers a more flexible and contemporary browsing experience is perfect timing. I'm also delighted that we were able to use our own internal resources to undertake this project which was led by System Administrator **Lewis Pugh** (designer) and Marketing Manager **Lindsay Burden** (content and co-ordinator)".*

Anyone wishing to find out more about the full range of Amicus ITS services should contact Sales on 02380 429429.
